

**„Melodic-Singalong-Oi/Punk with female voice!
Great debut album by Riot Company & Annex5/Vendetta members!!!**

Success says more than words: The story so far:

"COMBAT 77" was found in March 2007 by members of the bands RIOT COMPANY, ANNEX5 and VENDETTA from Hanover und Hildesheim in Germany.

No project, no artificial product ... here a band gets together out of friendship and for fun going their own way and making music.

In October 2007 the band already released a 4 song demo cd and drew attention to themselves!

With the help of modern MySpace, but also by „old-school“ word-of-mouth advertising, the songs soon aroused great interest in the scene!

„What's good succeeds without help“...it's still possible in the modern “TV superstar” age!

5 months later, after some gigs, the band was booked at the famous „Punk & Disorderly“ Festival 2008 in Berlin ...and gets a labels deal with 2 labels who want to release the vinyl and cd version; so it's off to the studio again!

So there's not much more to be said, because honestly:

Neither did the sun shine bright for Combat 77 nor did they get help because of good connections, like it is common in the mainstream music business, they are definitely not a clinically sterile hyped chart product.

The music speaks for itself... the fun they have playing music together transfers quickly from the studio to your home.

Personally, the album's title is an understatement for us, because there is much more to it than „only“ 100% Oi! But find it out for yourself...

By the way the record was produced by Gregor Hennig who already mixed the sound of famous German bands like TRASHMONKEYS, OOMPH!, PHILIPP BOA, WITT, THE ROBOCOP KRAUS and 200 SACHEN. Well, it seems that such magnitudes have fun with authentic scene bands and Punk/Oi! Sometimes the music world is marvellously simple...!
